

THE ELECTROSTATIC SANITIZATION EXPERT

GHF RESOURCES SDN BHD

Sanitize your environment effectively and efficiently

We, at GHF resources are utmost concerned about your well-being and security. We offer you a professional and top notch sanitization services to disinfect and cleanse your space.

GHF Resources utilizes a patented technological cordless Electrostatic Handheld Sprayer which can be disseminated with a choice range of 40/80/110 microns. In a substituting term, the pragmatic side of the usage of our technology is the avoidance of necessity to contact with a surface physically (dependent on solution dispersion).

In accordance to this technology, it proffers a rapid and efficient application method, also in cases where Cross contamination can be reasonably reduced due to the contactless reaction of our sprayer. However, the highlight worth of this sprayer is wrapping conductive surfaces as the solution are charged with electrostatics.

99.99 % EFFECTIVE

against virus such as Corona virus, SARS, MERS, Influenza A

30 DAYS
